

Nursery Curriculum Overview

Summer Term

Nature Explorers and Out and About...

Creatures Great and Small and Ready Steady Go!

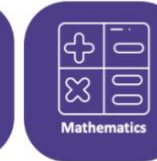

Making
Conversation

Managing Me

Mark Making
and Meaning

Mathematics

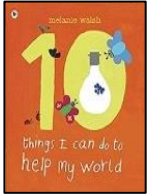

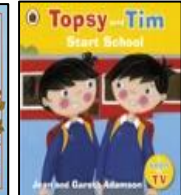

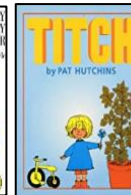

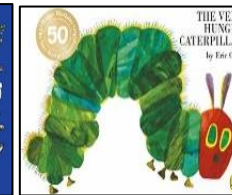

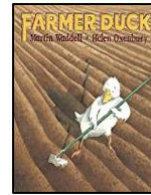

Muscles and
Movement

My Marvellous
World

Our focus this term: *Building confidence, independence and the foundations children need as they prepare for Reception.*

Here are *some* of the books that we will be reading in the Summer Term with your child.

MAKING CONVERSATION

Children will take part in longer conversations, listen for increasing periods, ask and answer questions and use new vocabulary to talk about stories, experiences and the world around them.

MANAGING ME

Children will become increasingly independent in play and self-care, learn to solve simple problems with others, talk about their feelings and begin preparing for transition.

MUSCLES AND MOVEMENT

Children will move confidently and safely, develop coordination through games, dance and Sports Day activities, and continue building the fine motor control needed for mark-making and writing.

MARK MAKING AND MEANING

Children will listen for sounds in words, begin oral blending where appropriate, make marks and write for real purposes and retell familiar stories using pictures and talk.

MATHEMATICS

Children will develop confidence with numbers to 5, count objects accurately, recognise and represent small quantities and explore shape, sequence and capacity through practical experiences.

MY MARVELLOUS WORLD

Children will explore plants, animals and growth, learn about caring for the natural world, investigate maps and different places and talk about how they themselves have changed over time.
